

What's up friends? First off, thanks for your interest in a custom order. What began as a joke about my ignorant approach to ding repair is now arguably the most awesome custom surfboard operation California has ever seen. Some unexpected free time and energy from the COVID-19 quarantine really jump started this operation, and I'm pumped to be fulfilling more orders.

I'm likely not pursuing this long term, so you're really getting a special edition, limited batch *Sticky Matt* OG shred sled. You choose the shape, size, design, whatever you want and I'll try to get it in your hands within a couple weeks of the order. Your custom surfboard should be tailored to your ability and desired wave riding, as well as have a unique look and feel.

Fill out as much of the form below as you can or want and submit the order to my email ([stickymatts@gmail.com](mailto:stickymatts@gmail.com)). Feel free to write in an add'l info/ideas/design or shape criteria as you wish. I'll respond to you with an estimate on the price and we can go from there. Most boards will likely be between \$425-600 range, or about half what you'd pay for a new, plain white, mass produced, board off the rack. **While each entry on this form can be left blank if you don't know or care, just ask and I'll help you through it.**

-Matt
